

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	20 February 2026
Team ID	LTVIP2026TMIDS24635
Project Name	Flight finder-navigating your air travel optins
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Email verification after registration
FR-2	User Login	Login with email & password Password recovery via email
FR-3	Flight Agency Registration	Agency registration with agency name, contact details, and credentials Agency account request sent to admin for approval
FR-4	Admin Approval – Agency	Admin can approve or reject flight agency registration Approved agencies gain access to agency dashboard
FR-5	Flight Management (Agency)	Add flight details (flight name, source, destination, time, price, seats) Update or delete flight details
FR-6	Admin Approval – Flights	Admin can approve or reject flights added by agencies Only approved flights are visible to users
FR-7	Dashboard & Flight Search	View all available flights Search flights by source, destination, and date
FR-8	Flight Filtering & Details	Filter flights by price, airline, duration View complete flight details
FR-9	Booking Management	Select flight and enter passenger details Confirm booking
FR-10	Booking Confirmation	Generate ticket Send booking confirmation email
FR-11	Admin Management	View and manage all users, agencies, flights, and bookings

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	User-friendly interface for users, agencies, and admin (web-based)

NFR-2	Security	Secure login, encrypted passwords, role-based access control, email verification
NFR-3	Reliability	System should handle failures gracefully without data loss
NFR-4	Performance	Fast response time for flight search and booking
NFR-5	Availability	System available 24/7 with minimal downtime
NFR-6	Scalability	Able to handle increased users, flights, and bookings as the system grows
NFR-7	Data Integrity	Accurate storage of flight, booking, and user data
