

Project Design Phase Problem – Solution Fit

Date	20 February 2026
Team ID	LTVIP2026TMIDS24635
Project Name	FlightFinder-Navigating your air travel options
Maximum Marks	2 Marks

Problem – Solution Fit:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ Understand the existing situation in order to improve it for your target group.

1. CUSTOMER SEGMENTS - Frequent travelers (business & personal) - Occasional travelers planning trips or vacations - Families booking group flights - Budget-conscious users - Flight agencies managing flight listings 2. JOBS-TO-BE-DONE / PROBLEMS - Search and compare flights efficiently - Find affordable flights with best timing - Avoid price confusion and hidden charges - Manage flight bookings easily - For agencies: add and manage flight details - For admin: control and approve platform data 3. TRIGGERS - Need to travel for work, vacation, or emergency - Sudden price drops or offers - Recommendation from friends or ads - Difficulty using existing flight booking platforms - Agency need to publish new flights 4. EMOTIONS: BEFORE / AFTER Before using FlightFinder: - Confused - Frustrated - Anxious about prices - Overwhelmed by choices 5. AVAILABLE SOLUTIONS - Traditional airline websites - Online travel booking platforms - Manual comparison across multiple apps - Phone-based or agent-based bookings - Limitations: - No smart recommendations - Time-consuming - Lack of transparency 6. CUSTOMER CONSTRAINTS - Limited time to compare flights - Budget restrictions - Beast timing - Avoid price confusions and hidden charges - Manage flight bookings easily - For agencies: add and manage flight details - For admin: control and approve platform data 7. BEHAVIOUR - Users compare multiple websites before booking - Delay bookings due to uncertainty - Agencies want fast approval and visibility - Admin prefers centralized control of data 8. CHANNELS OF BEHAVIOUR - ONLINE: - Web browsers - Email notifications - Online ads - referrals - Word of mouth - Travel planning discussions with family/friends 8. CHANNELS OF BEHAVIOUR - ONLINE: - Web browser - Email notifications - Online ads, referrals 9. PROBLEM ROOT CAUSE - Fragmented flight information across platforms - Dynamic pricing without guidance - Lack of intelligent recommendation systems - No unified approval mechanism for flight listings 10. YOUR SOLUTION - A unified web platform for users, agencies, and admin - Smart flight search and filtering - Admin-approved flight listings for trust - ML-based flight recommendation support - Simple, secure, and user-friendly interface 10. YOUR SOLUTION - A unified web platform for users, agencies, and admin - Smart flight search and filtering - Admin-approved flight listings for trust - ML-based flight recommendation support - Simple, secure, and user-friendly interface
